

Niagara Leadership Team invite you to

God, Creation & Creativity

a symposium with **Dr. Alan Jorgenson**,
Assistant Dean at Martin Luther University
College. This session is followed by lunch.

Saturday, April 27, 10:00 a.m.

**St. Luke's Evangelical Lutheran Church
245 Prospect Point Road
Ridgeway, ON**

'Have you ever wished you were more creative? Have you ever wished you had more time for creativity? Have you ever dreamed of using your creativity in serving God? If you answer yes to these questions, or if you are simply interested in theology, creation and creativity, then this interactive workshop is just for you. In it we will learn a little bit about creation, especially about how the God who creates makes us in God's image, thereby making us creative too! We will try to expand our understanding of creativity and explore how creativity can transform individuals, communities and the world. This workshop will also involve some hands-on opportunities to be creative using formats such as art, crafts, music and language. I am looking forward to meeting you on April 27th at 10:00 am at St. Luke's Lutheran, Ridgeway. All you need to bring is your curiosity, your questions, and a desire to learn a little bit more about theology, creation and creativity.'

—Dr. Alan Jorgenson
